

CROSS RUNNER

Mix Need and Nice – be Good to Yourself Twice

Imagine, again to enjoy long nature walks or to jog along the lakes.

Your cane or rollator may be fine for indoor and for short distance, but illness or handicap affecting your balance, strength, coordination or pain does not need to stop you from getting out!

CROSS RUNNER supports your body and reduces work load on your back, hips and knees giving you a new chance to walk, jog or run safely and comfortably.

CROSS RUNNER offers stability and allows you to increase distance and intensity. Take your dog for a walk or jog downtown, save pollution and money. Stay healthy and in contact with people you meet on the way.

Head out from your home or throw the CROSS RUNNER it in the back of the car and go on expedition. You may also be able to join recreational road races with friends and family.

It is easy to undo the wheels and the bolts on the frame and put the CROSS RUNNER in the back of the car.
