

# Ground Floor Trailers

- \* **No need to struggle with ramps, simply lower the trailer to the ground**
- \* **Makes loading and unloading safer**
- \* **1400mm entry height**
- \* **1100mm entry width**
- \* **Tie down points standard**
- \* **Electric winch operation for up/down**
- \* **Fully lockable**
- \* **Lightweight aluminium construction including chassis**
- \* **Independent suspension**
- \* **Standard size: 2400 long x 1200 wide (8'x4')**
- \* **Custom sizes available on request**

Using the remote control, you simply lower the trailer to the ground. Open the rear doors and wheel right on in. Tie down points are standard for securing your chair and load.

The trailer has independent axleless suspension and has a 750kg weight rating. Heavier suspension options and trailer brakes are also available .
