buggy pod ™

Buggypod io:
the convertible clip-on sideseat for your pushchair or wheelchair

Simply clip the Buggypod io onto the side of your pushchair or wheelchair to add an extra toddler seat. The Buggypod io folds open when your toddler needs to sit down for a rest and folds up flush when not.

"This has changed my life, I can go out with both my children on my own and not have to rely on people to even just come to the shops with me"   Kelly, UK.

"Thank you for giving me the opportunity to have independence as a father.... the fact it folds too, I could leave it there, or quick release the Buggypod away... it was like a dream come true".
Riley, UK.
